2. Policy
a. Annual Statements of Performance Commitments – RTÉ and TG4

Members were presented with copies of the Annual Statements of Performance Commitments (ASPCs) for 2015 submitted by each public service broadcaster, together with an executive analysis of the submissions made by RTÉ and TG4 respectively. The Authority was asked to consider a number of matters outlined in the executive note pertaining to the submissions received, in the context of the BAI’s statutory role in respect of ASPCs.

In considering each Annual Statement of Performance Commitments, members had regard to whether the submission made by each PSB was aligned to the ASPC framework for submissions, as agreed between the broadcasters and the BAI. The Authority also had regard to the key features associated with the commitments made by RTÉ and TG4 respectively.

The Authority had a detailed and wide-ranging discussion in relation to the ASPCs submitted by each broadcaster. In particular, the Authority discussed the statutory provisions relating to the submission of statements of commitment and related to this, the statutory provisions regarding the annual reviews of public funding. The Authority agreed that any feedback provided should be appropriately situated within the relevant statutory provisions. The Authority sought further elaboration and clarification on the framework for the setting of commitments which had been developed, in consultation with each PSB. The Authority considered the commitments made by each PSB in the context of the framework and the principal objects relating to content for RTÉ and TG4 respectively. A number of points for feedback were made in this regard, additional to those contained in the executive analysis.

More broadly, the Authority considered the nature of the commitments made by each PSB within the context of developments and changes in the wider media market. The Authority also discussed the impacts on the levels of public funding for each PSB, which had happened outside of the broadcasting regulatory structure.

Following detailed discussion, the Authority was satisfied that the Annual Statements of Performance Commitments, submitted by RTÉ and TG4 respectively, were sufficient and appropriate, having regard to the statutory provisions and the BAI’s regulatory needs in this area. The Authority was further satisfied that feedback would be provided to RTÉ and TG4, in line with the analysis conducted by the Executive and subject to a small number of additional observations.
It was agreed that a copy of the framework for the ASPC process, as agreed between the BAI and each PSB, would be circulated to the members for reference.

A report on the annual review meeting conducted with TV3 on 23rd January, together with a copy of a presentation made by TV3 at that meeting, was considered by the members. It was noted that the approach to reporting on such meetings with industry stakeholders was under review, having regard to anticipated changes in the manner of data collection from broadcasters by the BAI, among other things. In this regard, the Authority discussed the type and nature of engagement with broadcasting stakeholders at both executive and board level and how this might evolve over the Authority’s term of office.

The Authority then had regard to the report circulated and considered TV3’s observations on its performance, within the context of market issues more generally.
