

Press Release

July 2018 - June 2019

Ipsos MRBI/JNLR 2019/2 Summary Results

The latest JNLR/Ipsos MRBI report into radio listening is published today (1st August 2019). It covers the 12-month period from July 2018 to June 2019.

The latest results show more than 3.16 million listeners (15+) tune into radio every weekday – that is **daily radio listening at 82%** of all adults.

A total of **c16,900** people were interviewed during the survey period by Ipsos MRBI, on behalf of JNLR - Joint National Listenership Research - that is commissioned by all national, regional and local stations, BAI, AAI, and IAPI.

The following tables show the key, top-line results from the 'week-day' report for the main radio stations at National level, within Dublin and Cork counties, and the South East, South West, North West, North East/Midlands, Multi-city and Dublin Commuter regions. (See p.11).

While Tables 1-4 show the proportion of adults tuning into the stations at some time during the day, the depth of listening or loyalty to various stations is best reflected in the share of listening achieved by each station, as shown in Tables 5-8, whilst Table 9 provides information on the Local Stations in each licensed franchise area.

A large majority of Irish adults - 82% (=) listen to the radio on an average day. More than half, 56% (-1) tune into their local or regional station and 43% (-1) listen to a national station. Among the younger, 15 to 34-year market, 74% (-2) listen daily.

Irish radio audiences continue to listen to a significant amount of radio everyday – tuning in, on average, for almost 4 hours (226 mins) per day during the prime 7am to 7pm time (*Irish Adults listening Mon-Fri*). In terms of share of all minutes listened in the country, National Radio currently has 45.5% share (+0.3%) of all minutes while Local/Regional Radio holds the majority share position with 54.5% (-0.3%) in this reporting period.

Across the various regional areas throughout the country, National Radio holds the majority share position in Dublin (53.3%) and the greater Dublin Commuter belt (53.7%) while Local/regional radio is in the majority in the other regions throughout the country, in particular, achieving its highest share position in Cork (63.0%), in the North West (60.7%) and South West Regions (57.0%). (See T5).

Among the younger, 15-34, audience in the country Local/regional Radio is in the majority share position achieving a combined share of minutes of 65.1% (+0.3%) versus 34.9% (-0.3%) for National Radio. In particular, the local/regional group holds its strongest share position among this age cohort in Dublin (70.8%), in the Dublin Commuter region (67.9%), the Multi-city region (66.4%) and in Cork (71.8%).

Among the older 35+ age segment, Local/Regional radio is slightly ahead in terms of share of all minutes listened, 51.6% (-0.4%) compared to National radio. However, in regional markets among this age group, National Radio holds the majority share of minutes in Dublin (60.0%), the Dublin Commuter region (59.8%), the Multi-city area (52.1%) and the North East & Midlands area (51.8%). (See T8).

Local radio continues to perform strongly in the local radio markets across the country – in many areas reaching more than 40% of the local adult population daily. In particular, on the criterion of share of minutes listened during prime 7am to 7pm, Highland Radio and MWR hold the majority share position (50%+) in their respective franchise areas. (T9).

The population estimates in this report are based on Labour Force Survey estimates 2019 provided by the CSO.

(See pg 12 for definition of radio broadcast regions).

All Adults Aged 15+
